

LITHIUM ION

Features & Benefits

- High energy density and voltage
- Long stable power with flat discharge voltage
- Ideal for portable communications, portable computing and robotics

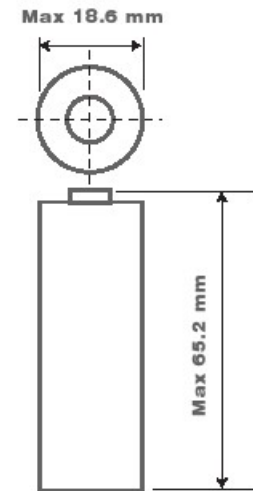

Specifications

Capacity: Typical: 2.9Ah
 (Charge: CVCC, 4.2V, max. 825mA, 50mA cutoff, 25°C)
 (Discharge: CC, 550mA, 2.5V cutoff, 25°C)

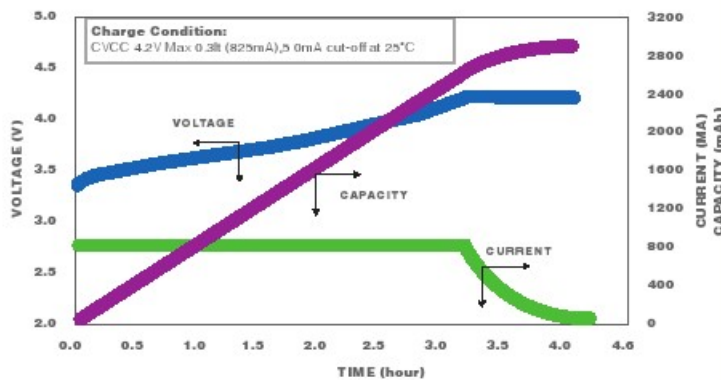

Nominal Voltage: 3.6V

Weight: Approximately 44.5g
